

TRAVEL ALERT

AND USEFUL INFORMATION

We would like to make you aware of a developing situation at the Cabo San Lucas/San Jose del Cabo Airport:

There are many aggressive representatives of various resorts, hotels and timeshare properties, located in the airport. These people work only on commission and will offer you many discounts (some items even for free) just to persuade you to go to their resort. These vendors can easily pretend to be some sort of authority, airport staff and even our Transcabo representatives (without wearing our company's uniform). They are located in the area immediately following customs and will approach you inquiring about your transportation plans.

We strongly recommend that you go straight through the airport and do not even talk to these people! There should be no reason at all for you to give anybody at the airport any money or personal information!

After you go through immigration, pick up your luggage and pass customs, there you will see the timeshare booths, we ask you to please take the right side exit that reads: Ground Transportation, Taxis & Bus.

Waiting at this exit for you will be a TRANSCABO representative wearing an ivory/natural polo shirt holding up a sign with the company's logo. He/She will transport you to your resort. It is very important that you take the right hand exit otherwise you won't be able to find our transportation. We remind you that if you take a taxi or any other means of transportation credit will not apply.

We wish you a wonderful stay in Los Cabos.
